“ WATER TELLS DAILY ROUTINE STORIES.  
WE GIVE THEM THE SHAPE, MATCHING ITALIAN  
WORKMANSHIP AND INNOVATION.  
OUR COMMITMENT GOES BEYOND THE PRODUCT:  
WE FOCUS TO TRANSFORM SPACES IN WELL  
BEING AND STYLE PLACES, ALWAYS AT THE  
SERVICE OF THOSE WHO CHOOSE US. ”

# TAKE THE GUIDING IDEA CARE

The care is the common thread between tradition and innovation. This is the choice of sustainable materials and the care of water saving, the research of long lasting solutions. The respect of the craftsmanship melting with the state of the art technology giving products of innovation and design.

FROM LAGO  
D'ORTA THE TERRITORY  
COMES OUR  
INSPIRATION

Since over sixty years our passion has deep roots in this corner of Italy, rich of history and water philosophy. From the lake shores and the surrounding hills we find the inspiration to create. Here each product of our express tradition and a vision that represents the essence of the Made in Italy.

CLOSE  
BY CHOICE, ZERO KILOMETERS  
ATTENTIVE BY  
VOCATION

Our local approach is a philosophy that embraces the whole production process. From the concept to the finishing, each stage performs in the Lago d'Orta district. A choice that allows a very careful quality control supporting local economy and reduces environmental impact. This is our way to contribute to the future of the territory and industry.

# GIVING VALUE CUSTOMER SERVICE TO THE TIME

We respect the time of our customers since we know how precious it is. On this purpose we offer a constant support, with a customer service always available to give quick replies and technical employees ready to help with successful solutions. The digital tools make available clear information and always ready, allowing to manage each need with simplicity.

# WHERE THE PRODUCTION EXPERIENCE AND INNOVATION MEET

Each product comes from a meticulous process matching traditionally craftsmanship and technological innovation. From design to the final test, each stage is carefully followed internally with precision and passion. The total control of the production stage allow us to grant the best quality and to react promptly to the market requests.

# 1958, WHERE THE ROOTS EVERYTHING HAS COMMENCED

From a small laboratory in San Maurizio d'Opaglio the brothers Pier Luigi, Benito and Giuseppino Frattini along with their father Maurizio, founded an artisanal laboratory of taps. In a small area, with commitment and ingenuity a reality destined to evolve was born. That first years have been a solid base of a familiar heritage that transformed the passion of the metal working in a tradition of excellence and innovation. The foundations of the well known company nowadays.

# A FAMILY, A MISSION

THE CONTINUITY

Nowadays the company Frattini is guided from the second generation. Giuseppino, one of the founders, works with the daughters Michela, Francesca, Silvia and the nephew Maurizio. The passion animating the first generation is unchanged: they continue to offer high quality Italian taps, matching functionality and design. With the glance towards future and roots firmly planted in the past, the Frattini Family maintains intact the mission to transform domestic places into elegant and comfortably environments.

THE ART OF THE DESIGN

# THE ENGINEERING OF THE DAILY WELL-BEING

In our technical office, the innovation comes from a teamwork. A team of planners, designers and installers cooperates to develop tap and sanitary fittings that match functionality aesthetic and reliability. Each product is the result of a constant research to improve the daily experience and granting easy installation technical solutions in respect to the standards of sustainability.

# DESIGN<sub>HOSPITALITY</sub> CHOICES, EXCLUSIVE HOSPITALITY

There's an affinity between the values of Cantieri Nautici Cranchi and Frattini, starting with the fact that both embody a family entrepreneurial history passed down through generations. A key strength is the utmost willingness to customize products to suit the needs of boats. Each project is an invitation to experience something unique, where design becomes the expression of a distinctive style, and beauty merges with functionality.

Innovative materials, faucets resembling sculptures, and finishes with contemporary color palettes are integral to an exclusive hospitality experience in the bathrooms of the most luxury hotels and resorts all over the world. Singapore Amoy hotel, Marriott Tirana Albania, Boutique Hotel in Malta are just few examples. Frattini's goal is to meet the needs in terms of design solutions but also to grant serious pre and post sales service.

# SUSTAINABILITY AS A MISSION

Environmental conservation is a core value and an integral part of the company's culture, both in design and in production. A photovoltaic system covers the entire electricity demand of the production departments, while a state-of-the-art galvanic bath utilizes innovative trivalent chrome. New design collections are made of AISI 316L stainless steel, an antibacterial and hygienic material that is resistant to corrosion, tension, wear, and heat, and is 100% recyclable. Sustainability is not just a goal but guides every decision and action towards a greener and more promising future.
